THE POOR MAN TO HIS SON.

BY EULA COOK. Work, work, my boy, be not afraid, Look fabor bondly in the face, Take up the hammer or the spade;
And blush not for your humble place.

Hold up your brow in honeat pride, Though rough and swarth your bands may That life blood of the Nation's tree. There's honor in the toiling part,

That finds us in the furrowed fields; It stamps a crest mon the heart; Worth more than all your quartered shields. Work, work, my boy, and murmur not.

The fustain garb betrays no shame;
The grim of forge-shot leave no blot,
And labor gilds the meanest name. And man is never leaf so blest, As when the busy day is spent, So as to make his evening test A holiday of glad content.

God grant thee but a due reward, A guerdon portion fair and just, And then ne'er think thy station hard, But work, my boy, work, hope, and trust.

BALTIMORE CORRESPONDENCE.

BALTIMORE, August 8, 1854. The weather is now so delightful that all who thought of spending the last days of summer at some watering place seem to have given upthe idea. Baltimore, while the thermom-eter stands where it does, is good enough for

The present cool spell has had a beneficial effect upon the health of all in this region. It has even caused an abatement of the cholera, which was so fearfully on the increase at the almshouse. For the last twenty-four hours there has been but one death at this institu-

Now that our city has become more healthy. it may be well to state that we have had the cholers among us to a considerable extent, notwithstanding the stories to the contrary Num-bers of our citizens have been carried off by this disease. I could give their names if necthis disease. I could give their names if nec- W C Virgil, do G Mury, Balt casery... It is not only a mistaken, but also a Lady and three children, T Denby, Rich eruel policy to say, that there is no cholera, when our neighbors are dying with it all around us, for fear of driving away trade It Miss would be much better to lose frade than some W Anthony, Nor of our best citizens.

ANOTHER ENIGMA. WASHINGTON, Aug. 4 1854.

. Editors of the Star;

Noticing in your valuable paper of today a neat little enigma, with a challenge solve it, I beg leave to insert the soluon; and I hope I do not ask too much you in requesting a continuance, from me to time, of these interesting little ddles. The solution I attach to it is State Capital Gazette." If you have om in your journal, I would request the I am composed of 16 letters.

My 13, 15, 10, 4 is part of a ship. My 16, 2, 14 is an animal. My 11, 3, 4, 8 is a wonderful river. My 13, 3, 9, 12 is what ladies do. My 16, 10, 11, 1 is the left side of a

My 14, 16, 5, 2, 12, 15, 3, 9 is a good

My 8, 7, 6 is a lady's name. My whole is a paper which has, without doubt, a circulation surpassing that of the State Capital Gazette.

I hope the composer of the enigma I have solved will write us another, and so continue the series of enigmas, which will add another ray of interest to the brilliant Justre of the Evening Star. Entertaining the greatest interest in the valuable daily of which you are the editors, I have the pleasure of signing my-

ONE MAN. - A single man can do a great deal of evil. Schuyler's fraud will injure thousands who never saw or heard of him. His rascality destroyed confidence. This brought on a panic, which is producing results as long and broad as the republic. As railroads can no longer borrow money, railroads can no longer be built. This leads to inactivity, a discharge of laborers, and a general depreciation in the value of muscles and pickaxes. Schuyler's financiering has already thrown twenty thousand men out of work, and yet the evil has just commenced. When we see what one single individual is capable of doing, it

was but one spare bed, and the landlord was called on to decide which had the better claim of the three.

"I have lain fifteen years in the garrison of B." said the officer. "I have set a judge twenty years at R." said the judge.

With your leave gentlemen, I have stood in the ministry twenty-five years, at N.," said the priest.

"That settles the dispute," said the andlord. "You, Mr. Captain, have lain diteen years: you, Mr. Judge, have sat wenty years; but the aged pastor has tood five and twenty years, so he has certainly the best right to the bed."

OUR FIRST MEN. -The only brother of Henry Clay was a cabinet maker: Webster, the giant statesman, and the ornament of his country, had a brother-infaw who never learned to read until after completing the period of three-score-andten; and a majority of the first statesmen of the present time are the energetic and ambitious sons of poor, but honest

LET FACTS SPEAK: BARRELVILLE, Alleghany co., Md. May 4th, 1852. \\
To Meers. Mortimer & Mowbray—Dear Sirs—In justice to Dr. Hampton's Vegetable Tincture, I wish to inform you that I was taken sick on the 3d day of January last, with an affection of the stomach owels, and kidneys. I was attended by four eminent physicians for more than two menths—all to little or no effect. I had some knowledge of the great virtue in Hampton's Tincture, from one bot tle which my wife had taken two years since. I came to the conclusion that I would take no more medicines from my physicians, but try the Tincture; and I am happy to inform you that I had not taken it two days before I felt its powerful in fluence upon my stomach. I have continued using the Tincture, and am now able to leave my room, and can eat any common diet without much incom venience or pressure on my stomach.

The afflicted, or their triends are daily visiting me, to learn of the great virtue there is in the Tinoture of Hampton's.

days—one, especially, from a young lady who has been confined to her room for twelve months, with disease of the head, affecting the brain. On the permanency of the cure hear him. Still another letter from the above:

I expect to send you several certificates in a few

BARRELVILLE, Alleghany co., Md., October 13, 1852. Messrs. Mortimer & Mowbray: Dear Sirs-I am happy to inform you that this day finds me in the enjoyment of good health, by the use of your liampton's Tincture and the blessings of God. I am enahave a great desire that the afflicted should know the great curative powers of the Tincture.

I am, with respect, yours, Call and get Pamphlets and see cures of Coughs. Bronchitis, Rheumatism, Liver Complaint, and

STEAM MACHINERY FOR U. S. STEAM FRIGATES.

NAVY DEPARTMENT, July 1, 1854. DROPOSITIONS will be received at this depart ment until the first day of August next, for the complete construction of the steam machinery and appendages, and placing it on board of five auxiliary screw steam frigates, to be at least 255 feet in length, and of 3,000 tons measurement, one of which is building at each of the United States navy yards at Boston, New York, and Philadelphia, and two at

Each off r must be for a specific sum, and include all patent fees for any arrangement that may be proposed, and must state the period within which the work can be completed The boilers are to be of iron, with telescope chimneys; the propeller, with the connexions for hoisting up, of composition. The fresh water condensers, nachinery for hoisting, ventilating, pumps, &c., with appurtenances of all kinds, must be those most approved for merine engines. The tools and suplicate pieces necessary for an efficient cruising ship-of-war, a list of which must accompany to

proposal, and also the coal bunkers, must be included. adapt the vessel for the reception of the engines, boilers, propellers, &c., will be at the expense of the Navy Department, and it will furnish the usual facilities and later for hoisting the machinery on

For the accommodation of the entire steam machinery with fuel for ten days' consumption, at the average speed, at a load draft of water of 23 ie t, incinding the keel, a length not to exceed 60 feet con be allowed in the body of the ship, including the entire space under the birth deck. The greatest breadth of this space under the beam will be 47 ft .. and the height from the timbers to the bottom of the beam 17 feet; the area of the section being 682

square feet. The weight of all the steam machinery, water in the boilers and coa! within the space given, and including the propeller and shaft, with appendages of all kinds and spare pieces, has been estimated at 730 ons of 2,240 pounds, of which 350 tons is for coal. The distance between the main stern-post, and the rudder post may be six feet, if that length is ne essary for the propeller in a fore and aft direction, and the dapth from the load water line to the top of he keel under the propeller will be 21 feet. The eagth from the maismast to the stern-post will be

about 11z feet. The area of the greatest immersed transversed section to the deep load line will be 865 As auxiliary steam frigates the spars and rigging will be those of a frigate of the first class, of 1,800 tons measurement The particular arrangement of the maci inerv wil he left with those whose propositions may be accepted as combining the greatest number of advantages; the desire of the department being to obtain the greatest speed and power with the most economical

consumption of fuel, which the apace available for that purpose will admit. The terms ... psyment will be as follows: when one-third of the work pravided for by the contract shall have been completed to the satisfaction of the department, there shall be a payment of one-fifth of the whole amount of the contract; when two-thirds of the work shall, in like manner, be completed, there shall be a further payment of one fifth. when the ship shall have made a trial trip, satisfactory to the department, of not less than one week at sea, there shall be a further payment of one fifth; and when the ship shall have been in possessirn of the department, and performed satisfactorily for six months, the remaining sum shall be paid; the repairs necessary during this period, from defective workmanship and material, being at the expense of

Each proposal must specify the ship for which the offer is made, and must be accompanied by full and complete specifications and drawings, which, if desired, will be returned o those whose offers may not be accepted. It must also be stated at what es tablishment the work is to be done. Each proposal must be accompanied by a guarantee that the contract, when awarded, will be faith-

fully performed, and the successful bidders will b required to enter into security for that purpose in the sum of three-fourths the amount of the contract. J. C. DORBIN, Secretary of the Mavy. jy 1-2awtlAug
